## FESTIVAL PFT 2024 HAS BEEN OFFICIALLY LAUNCHED

On April 28, 2024, Pondok Forex Warrior (PFW) organized the official launching ceremony of the Festival PFT2024 and Aidilfitri Open House.

This event was attended by many high-profile people and business partners to commemorate the Aidilfitri celebration in the presence of 250 other guests. The Festival PFT2024 has been officially launched by our founder, Atuk Pemalu.

An increase in joint partners and sustainable festival development goals is anticipated from this latest international collaboration.

This festival consists of five main activities: online trading competition, partner collaboration, education collaboration, signal provider, and fund management, such as forex copy trade and PAMM trading.

In this festival, contestants will have a chance to win all the prizes especially the Festival PFT 2024 Grand Prize, a Ford Mustang for the first prize winner, a Superbike 250cc for the runner-up, Trading Stations, iPhone 16 Pro Max, Macbook Pro, iPad Pro, Cash Prizes, and many more.

## A Great Opportunity Awaits You !

The most special thing about this festival is that all contestants will get a chance to win Perodua Bezza in the qualifying stage, and we will pick the lucky draw winners randomly. So it would be a great loss if you didn't grab this great opportunity to participate in the PFT Festival 2024.

## HOW I BECOME **PFT2023 CHAMPION**

Hi everyone, my name is M. Rizal. My passion for trading started in the early days of my career years before, and now full-time trading is my current profession.

During my first 5 years, there were too many ups and downs in my trading. My focus at that time was to gain as much knowledge as I could to strengthen my trading SOP.

The PFT2023 competition that I joined is basically to test my trading skills in a more active way.

In previous years, I also participated in PFT competitions, but 2023 was a lucky year for me because I managed to qualify for the final stage and become the champion of the PFT 2023 competition.

CTCFM, as the official broadcaster of PFT Festival 2024, will cover live activities during PFT Festival 2024 on CTCFM's official YouTube page. The live podcast will be held every Tuesday, every week, starting at 8:30 p.m.

Previously, PFT was known as a forex trading competition. The year 2024 PFT has entered the third phase, where we want to take a step forward with a wider scope. Through our new branding, Festival PFT2024, we added four more main activities apart from the forex trading competition.

This year's PFT Festival also opens collaboration opportunities for partners to further boost the activities provided throughout the year 2024. The collaboration categories offered are such as partner collaboration, education, signal provider, and fund management. Festival PFT 2024 will offer generous rewards to partners who participate in the festival.

As the biggest forex competition hub in Malaysia, we are honored and welcome the participation of Trading Masters to collaborate with the PFT Festival 2024 to get wider coverage in the forex market and community in Malaysia and internationally.

PFT Festival 2024 offers four times bigger prize rewards than the PFT event that was organized in 2023. We also provide the official PFT2024 Festival website to make it easier for all our followers to get information on the latest activities and developments of the festival, which are updated from time to time.

To participate in PFT Festival 2024 activities, customers only need to deposit \$200 USD into their own trading account. With this participation, all participants automatically have a chance to win all the Festival PFT 2024 prizes and the lucky draw that has been provided.

## THE MOST CONSISTANT COPYTRADE TRADING BY NAMAN TRADE AND WILL BE CONTINUELY CONSISTANT IN THE FUTURE

The 'Naman Trade' is 100% manual trading, started in January 2024 with a return not less than 6% per month and has been proven with an overall profit of 65.64% more than 120 days in trading. This product is suitable for investors in category medium and long-term investment mindset.

Method and technique that mainly base on Commitment of Trader (COT) data as a reference, usually I'm entering the market which is usually during the Europe & US Session with the appropriate lot size base on suitable money management risk & reward.

Generally, as professional fund manager in copy trade, I look into the mindset to ensure the monthly result in positive return and consistent. As investor, you should consider at least 3 months performance as benchmark before decide to subscribe any copy trade in the market.
